REMARKS

The figures of births and deaths shown in this statement for week ending the 19th February, 1955, relate to 210 towns with an estimated population of 28,196 thousands. The total number of towns is 300 and their population is 38,987 thousands. Thus 70% of the total number of towns representing 72% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,475 and 6,128 representing birth and death rates of 26.7 and 11.3 per thousand of population respectively.

(A) States (Parts A and C) :—The data here relate to 182 towns with an estimated population of 24,123 thousands. Information about Ajmer, Bhopal, and West Bengal could not be included. The total number of towns is 252 and their population is 32,571 thousands. Thus 72% of the total number of towns representing 74% of the total population is covered. The number of births and deaths recorded in these towns were 13,062 and 5,319 representing

birth and death rates of 28.2 and 11.3 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B) :—The data here relate to 28 towns with an estimated population of 4,073 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 58% of the total number of towns representing 63% of the total population is covered. The number of births and deaths recorded in these towns were 1,413 and 809 representing birth and death rates of 18.0 and 10.3 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
